DETAILED ACTION

Allowable Subject Matter

Claims 8-13 and 15 are allowed.

The following is an examiner's statement of reasons for allowance. The prior art of record and to the examiner's knowledge does not teach or render obvious, at least to the skilled artisan, the instant invention regarding a method of forming a copper wiring in a damascene structure, particularly characterized by performing a copper electroplating in an electroplating apparatus by applying a negative power supply to the substrate and performing a copper electro-polishing process to remove the copper layer and the copped seed layer from an insulating film by applying a positive voltage to the copper layer and copper barrier layer, in combination with the other claim limitations in independent claim 8. Claims 9-13 and 15 are dependent upon claim 8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
